

FIRST AID CATALOG

GENUINE FIRST AID.

Organized Pockets for Emergency Access

The patented Easy Access Pocket System in these kits was developed specifically to meet emergency care requirements.

It is designed to make it extremely fast and easy to find exactly what you need to help someone in an emergency. When an accident or emergency occurs requiring first aid, simply open the kit and take out the pockets.

As they are clearly labeled with text and pictures, you can instantly choose and open the pocket that applies to the emergency at hand. When done, simply close the resealable pocket and put away the kit.

Easy Refill System

Genuine First Aid refill kits are the perfect complement to the Easy Access Pocket System, with a refill kit available for each pocket.

Each refill kit provides a subset of the components in the corresponding Easy Access Pocket, so the pocket can be replenished after one or several uses with the parts most likely to have been depleted.

It has never been easier to keep your First Aid Kit and Emergency Preparedness Kit stocked up and ready to go.

Genuine Emergency Preparedness Kit with First Aid

Genuine Emergency Preparedness Kits are not just First Aid Kits with a few added items. They are designed for real emergency preparedness, with an impressive list of included items at an unbeatable price.

These kits include an Emergency Radio/Flashlight, a Face Mask, a Whistle, an Emergency Blanket, an Emergency Poncho, a Light Stick, Triangular Bandages, Eye Wash and much more.

These kits also include a long list of First Aid items. All are packed in the Easy Access Pocket System, making the kits easy to understand, quick to access and ideal for emergencies.

Genuine Emergency Preparedness Kits are available in either a soft bag or a hard case. The hard case is wall-mount ready and ideal for use in office and industry settings where kits are required to be visibly available.

Genuine First Aid Kits

This line of Genuine First Aid Kits was specially designed for sale in retail stores. They combine the patented Easy Access Pocket System and quick access requirements perfectly to provide excellent kits with quality components at an exceptional price.

This line of kits comes in 5 sizes; from 101 pieces to 202, 303, 404 or 1000 pieces.

The Easy Access Pocket System is designed to streamline emergency care. When an accident or emergency occurs that requires first aid, simply open the kit and take out the pockets.

Each kit is clearly labeled with text and pictures. You can choose and open the pocket that applies to the emergency situation. When done, simply close the resealable pocket and put the kit away.

These Genuine First Aid Kits are perfectly coordinated with the Genuine First Aid Refill Kits, making them easy and inexpensive to replenish when one has been in use.

101 & 303 Hard Case First Aid Kits

As with soft-bag kits, these two hard-case kits were specifically created to meet office and industry requirements. They combine the Easy Access Pocket System with carefully chosen First Aid items, in a hard case that is wall-mount ready.

These kits coordinate perfectly with Genuine First Aid Refill kits, making them easy and inexpensive to replenish after use. They have the same contents as soft-bag 101 and 303-piece Genuine First Aid Kits but in a robust hard case.

Genuine First Aid Training Kits

These training kits have been in use for years by trainers across the globe.

The CPR Training Kit comes with a breathing barrier for training, and a pair of latex-free vinyl gloves. The Basic Training Kit and the Combo Training Kit use large triangular bandages made of nonwoven material.

The new Training Kit With Muslin Bandage now provides triangular bandages made of muslin, in the same large size (42" x 42" x 59") preferred by most trainers.
